Dear Mr. Blossom:

Re: Large Mine Plan Permit Review Status, Materials Energy Research & Recovery Corporation (MERR), Lakeside Mountains Limestone Project, M/045/038, Tooele County, Utah

On April 16 & 27, 1992, the Division received your response and supplemental information to a joint BLM/DOGM February 13, 1992 technical deficiency review. This letter is sent to notify you that we will not be able to complete our review of your amended plan information within the standard 30-day review period. Scheduling conflicts and permitting backlogs are the basis of this unforeseen delay.

We apologize for this delay and hope it will not cause any serious development or construction scheduling problems for you. We anticipate completing our review within the next 30-45 days. Thank you for your patience and understanding in this regard. Please contact me if you have questions or concerns with this review scheduling proposal.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor
